ABOUT ME

I'm a transformative web and mobile driven by a profound passion for crafting exceptional digital experiences. With a keen eye for detail and a deep understanding of user behavior, I thrive on creating intuitive, elegant interfaces that resonate with users while ensuring superb functionality.

My journey in the realm of design and development is fueled by a singular goal: to build user-centric products that not only meet but exceed expectations. I firmly believe that the intersection of aesthetics and functionality is where true innovation happens. By empathizing with users' needs and aspirations, I strive to create seamless, engaging interfaces that resonate and deliver value.

My commitment extends beyond aesthetics – I am driven by a strong desire to help businesses flourish. I firmly believe that when user experience takes center stage, businesses grow. Whether it's through intuitive designs or seamless functionalities, I am dedicated to contributing my expertise to drive business success.

PROJECTS

04/08/2024 – 06/10/2024

Under 40 CEOs

A business website.

Link <https://under40ceos.com/>

13/03/2023 – 20/03/2023

Broad View Capital Website

Freelance website-building project. I was contacted via Fiverr, the freelancing platform, to help convert the existing design into a functioning website.

Link www.broadviewcapital.com/

15/03/2023 – 23/03/2023

The Harbor Church

I was given a Figma design for the website and converted it into a functional one.

Link <https://www.harborchurchla.com/>

05/08/2023 – 30/08/2023

One Red Box Website

The website was originally built with Python commands, and it had a lot of style and functional inconsistencies. I was contracted to help revamp it. I made the website more aesthetically pleasing to start with, and then I proceeded to improve its functionality.
